

K42 Concentrated Quat Sanitizer

K42 Concentrated Quat Sanitizer is a highly concentrated quaternary ammonium chloride-based sanitizer for food contact surfaces that is effective against a broad spectrum of micro-organisms with minimum 1 minute contact time. K42 Concentrated Quat Sanitizer is suitable to spray or soak sanitation of cleaning floors and walls in food service environments as well as Stage 3 Sanitization in the M-Teknologi 3 Sink Dishwash Method

Professional Kitchen Solutions

FEATURES

- ✓ Concentrated formula developed for high-accuracy chemical mixing and dispensing using M-Teknologi Auto Dispensers
- ✓ Can be manually dispensed for smaller kitchens using 30ml M-Teknologi swan-neck pumps.
- ✓ Effective against E-coli, Listeria monocytogenes, Salmonella choleraesuis and Staphylococcus aureus on pre-cleaned surfaces at a contact time of 60sec in hard water conditions at 200PPM.
- ✓ Quick, convenient application.
- ✓ At 200 PPM suitable for use as a no rinse sanitiser on hard non-porous food contact surfaces provided they are thoroughly dried.
- ✓ No residual smell or taste.
- ✓ Economical Stage 3 Sanitization using M-Teknologi 3 Sink Dishwash Method

DIRECTION

1 For M-Teknologi 3 Sink Manual Dishwashing Sanitizing:

- Using M-Teknologi WareDose Auto Dispenser: Set Auto Dispenser to 200 PPM & fill sink to required level.
- Using 30ml Manual Swan-Neck Dispenser: Dispense 1 x 30ml shot per 6 Litres of water and fill sink to required level.
- Test the concentration with M-Teknologi T4 Quaternary test strips at 200 PPM.
- Fully immerse items in activated K42 Quat Sanitizer solution for at least 60 seconds.
- Remove items, drain the use-solution from the surfaces and air dry.

For Daily Surface Sanitization:

- 2 • Using M-Teknologi WareDose Auto Dispenser: Set Auto Dispenser to 200 PPM & fill spray bottle.
- Using 30ml Manual Swan-Neck Dispenser: Dispense 1 x 30ml shot per 6 Litres of water into the spray bottle.
- Test the concentration with M-Teknologi T4 quaternary test strips at 200 PPM.
- Ensure all the surfaces are pre-cleaned using a recommended M-Teknologi detergent, then rinse all surfaces thoroughly and dry using M-Teknologi Paper Towel.
- Spray all cleaned surfaces with active M-Teknologi Quat Sanitiser and leave for a minimum of one minute.
- Wipe with M-Teknologi Paper Towel or allow to air dry.

ACTIVE INGREDIENT

Alkyl polyglucoside, Alkyl Dimethyl, Benzyl ammonium chloride, Aqua

WARNING

Your M-Teknologi representative will set the dilution to provide optimum results according to your water pressure and surface type. Store in food processing or storage areas.

3 Deep cleaning:

- Using M-Teknologi WareDose Auto Dispenser: Set Auto Dispenser to 400 PPM & fill spray bottle.
- Using 30ml Manual Swan-Neck Dispenser: Dispense 1 x 30 ml shot per 4 Litres of water into the spray bottle or bucket.
- Test the concentration with M-Teknologi T4 quaternary test strips at 400 PPM.
- Ensure all the surfaces are pre-cleaned using a recommended M-Teknologi detergent, then rinse all surfaces thoroughly and dry using M-Teknologi Paper Towel.
- Spray or mop all cleaned surfaces with active M-Teknologi Quat Sanitiser and leave for a minimum of one minute.
- If used on food contact surfaces they must be rinsed with potable water.
- Wipe with M-Teknologi Paper Towel or allow to air dry.
